Capturing learning
- **Experience** – Describe the learning experience, what happened? What did you do in reaction to it?

- **Knowledge** – What do you know now that you did not know before?

- **Skills** – What can you do now that you could not do before you had the experience, or can do better now because of the experience?

- **Reflections** – What were your feelings and thoughts? What did you do well? What would you do differently? What values did you use?

- **Application** – Think of a situation that you could apply/have applied what you have learned.
